Did you mean: (verification transmission errors) "**ceiling** function"

... information with **verification** of unintentional and intentional **transmission errors**

M Mouffron, J Terikes - US Patent App. 10/596,435, 2004 - Google Patents

... [0038] In this example, a determined number p_i out of the p **transmission error verification** bits form a seal obtained from a determined **sealing function** where p_i is a number less than or equal to p . In this example, the other p_2 **transmission error verification** bits, where $p_2 = p - p_1$...
